

11/01/2020

Just a note to let our players know what is going on with the League.

We have been waiting on the APA and Governor Wolf to give the okay. We are not sure how this is ending, but the APA will help us do what is best for all and what is fair for all. We have all of the records as they ended in March 2020 when we stopped play. The APA Main Office keeps track of and controls the ZSAPA's Players Fund Account.

The only thing I can say is check this home page for ZSAPA, I will continue to post any and all new information on this site.

I know other places and leagues are holding tournaments, but we are not because we are following the law. The State Police have told me directly at this time only 5 people may play pool at one time, the Host must be serving food, everyone must have a mask on, all equipment must be continuously sanitized, etc. Many of our Host Locations are not even open yet. We need all of them to be open to start. We are a licensed franchise and therefore could be held responsible if someone becomes infected with the virus.

This is the only information I can give you at this time, but you are welcome to contact the APA with any other concerns you might have.

Hope all is well with everyone at this time. Stay safe.

Sincerely, ZSAPA
